FINE Desert CLARET.  
The best principle hitherto obtained. The type  
is uniformly illustrated and explained, forming ex  
amples for students of a most instructive nature.  
Both the Court and Punt pronunciations are  
given, the accents being carefully marked on  
the best principle hitherto obtained. The type  
display the success of an attempt to  
make the Chinese and English type correspond  
in the size of body, thereby effecting a vast  
economy in space, achieving a clearness not  
previously attained, and dispensing with those  
wide margins and vacant spaces which have  
heretofore characterized Chinese publications.

To illustrate the vast scope of the work, the  
following facts are submitted for consideration:  
The Chinese Vocabulary contains about 16,000  
Chinese characters, and Moobut's English  
and Chinese Dictionary about 100,000, whilst  
this work contains more than 50,000 English  
words, and upwards of 50,000 Chinese charac  
ters. Again, despite all the grammar, and  
other elementary works as yet published, the  
deficiency of this difficult language absolutely re  
quires examples to display the various appli  
cations given to each of different words which  
have one general meaning. Of these examples  
this work contains more than five times as  
many as any other Dictionary hitherto pub  
lished.

For practical purposes the arrangement of  
the work is so complete, that a reference to  
its pages enables a person who under  
stands English to communicate effectively  
with natives who understand nothing but Chinese.  
In this respect the work is
